PosturePremier
ADVANCED

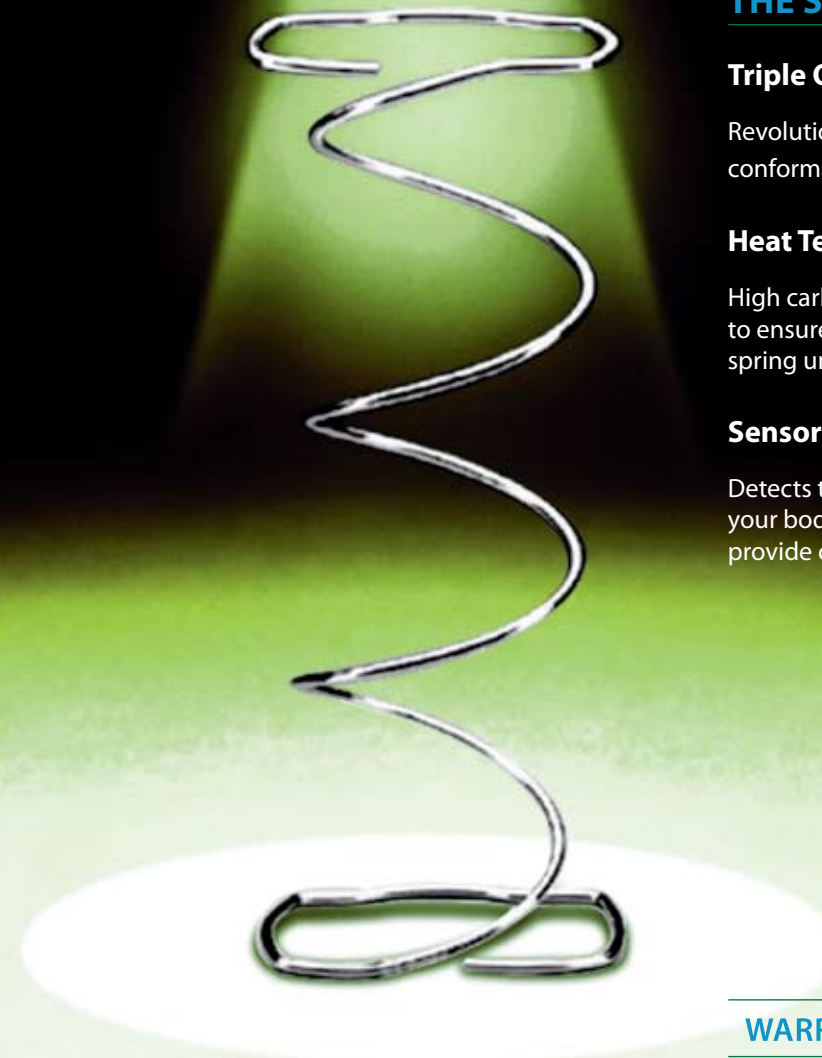

At the heart of a Sealy Posturepedic® mattress is the Sealy PostureTech® coil. This revolutionary patented design incorporates a host of technologies to provide superior comfort, support and the correct spinal alignment when you sleep. The coil's Sensory Arm actually detects the shape, weight and movement of your body while you sleep, then adjusts itself to provide correct spinal alignment. This means you get better quality sleep, because when you sleep better, you wake up feeling more refreshed.

With Sealy's unique combination of comfort materials featuring natural cotton, premium Sealy foams and fibres, you'll feel comfortable the very moment you lie on a Sealy mattress.

Designed to detect the shape, weight and movement of your body while you sleep, this Sense & Respond Support System reacts to the needs of your back and body, providing an unprecedented combination of correct spinal support and conformance.

THE SEALY POSTURETECH® COIL

Triple Offset Design

Revolutionary design provides superior body conformance, while preventing roll together.

Heat Tempered Steel

High carbon spring steel coils are heat tempered to ensure maximum durability of the entire spring unit.

SensoryArm™

Detects the shape, weight and movement of your body while you sleep, then adjusts itself to provide correct spinal alignment.

WARRANTY

All Posture Premier mattresses come with a 10-year limited warranty.
