

# PostureLux

engineered support + superior comfort

By the makers of  Posturepedic

Designed to provide you with  
a complete sleep solution.

The Sealy Posturepedic Titanium Coil is a revolutionary technology that provides the proper support the body needs, allowing the muscles to relax and recover while you sleep.

Made from Titanium alloy which is light, strong and durable, the coil's Sensory Arm™ actually detects the shape, weight and movement of your body while you sleep, then adjusts itself to provide correct spinal alignment. This means you get better quality sleep, because when you sleep better, you wake up feeling more refreshed.
