

PostureLux

engineered support + superior comfort

By the makers of  Posturepedic

Designed to
provide you
with a complete
sleep solution.

The Sealy PostureTech[®] Titanium Coil is a revolutionary technology that provides the proper support the body needs, allowing the muscles to relax and recover while you sleep.

Made from Titanium alloy which is light, strong and durable, the coil's Sensory Arm[™] actually detects the shape, weight and movement of your body while you sleep, then adjusts itself to provide correct spinal alignment. This means you get better quality sleep, because when you sleep better, you wake up feeling more refreshed.

PostureLux

Key Features

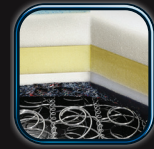

**PostureTech®
Titanium Coil**

The Sealy PostureTech® Titanium Coil is a revolutionary technology that provides the proper support the body needs, allowing the muscles to relax and recover while you sleep.

UniKey®

Full perimeter edge support system that adds stability, provides a firm seating edge and extends the sleep surface.

ComfortCore®

Step up to ComfortCore® where the ultra-soft foam offers a greater level of conformance to the back and hip area.
